EDUCATION

Loyola Marymount University

Los Angeles, CA

Bachelor of Science Information Systems & Business Analytics

May 2027

GPA: 3.86

- Relevant Courses: Computer programming & Lab, Statistics, Finance, Managerial Accounting, Analytics in Operations & Supply Chain Management, Data Structures, Database Management Systems, Algorithms & Analysis.

ACADEMIC PROJECTS

Dathon

March 2026 - March 2026

- Analyzed 1,732 emergency medical dispatch records across 21 California bases leveraging SQL and Python.
- Translated raw EMS dispatch data into actionable Board-level insights on response time performance, shift utilization, and projected meal break violation rates under proposed California labor law.
- Presented findings to judges in a regional competition and won first place.

LLM Manager

August 2025 - December 2025

- Built a full-stack web app for deploying and managing LLMs locally using VLLM as a backend.
- Implemented Python, SQLAlchemy, Docker / Docker Compose, React, TypeScript, SQLite/Postgres, Git, etc.

EXPERIENCE

CP Financial and CP Realty Inc.

Los Angeles, CA

File Analyst Intern

June 2026 - Present

- Managed end-to-end file processing and tracking for 20+ active mortgage loan files, partnering with loan officers to maintain data accuracy and compliance across property records in FirstAm IgniteRE throughout the loan lifecycle.
- Supported underwriting and risk analysis by reviewing borrower and property documentation, identifying discrepancies, and helping assess loan-level risk prior to closing, contributing to a 20% reduction in file errors/delays.
- Coordinated with title and escrow agents to open title insurance and escrow accounts for client transactions.
- Built and analyzed operating budgets and conducted financial reporting, while fully compiling and closing out client files for physical and digital recordkeeping.

Bel-Air Country Club

Los Angeles, CA

Bagroom Logistics Manager/Outside Services

July 2025 - Present

- Manage high-volume operational data related to 100+ members, including inventory tracking, service logistics, and scheduling, ensuring accuracy and consistency across daily operations.
- Utilize Excel and spreadsheet-based tracking systems to monitor golf bag inventory, cart usage, and forecasted daily cart demand, supporting real-time operational decision-making.
- Coordinate logistics for high volume equipment deliveries while ensuring accuracy, timeliness, and client satisfaction
- Partner with supervisors to translate operational insights into process improvements and service enhancements

AWARDS AND CERTIFICATIONS

Beta Gamma Sigma International Business Honor Society

March 2025 - Present

Microsoft Office Specialist: Excel Associate (Excel 2019)

October 2024 - Present
